SWANSON'S for Fall

Fall Vegetables

September is the ideal time to plant fall vegetables, either from plant starts or from seed. Swanson's carries varieties of cool season crops that are particularly well suited for our Pacific Northwest climate.

Plant up some Lettuce, Spinach, mild or spicy Mesclun, Arugula, Collards & Kale, Carrots, Turnips, Beets, as well as Swiss Chard, and Peas. You'll find great satisfaction in growing and harvesting vegetables you've grown yourself and the kids might think so too!

Spring Bulbs

(for Fall Planting)

Nothing brightens our Spring like a color riot of Spring-blooming Bulbs. The time to plant them in your garden or containers is FALL. Swanson's carries a wide variety of Tulips, Daffodils, Alliums, Iris and Crocus, just to name a few. We also have lots of unusual species and varieties, as well as bulbs for winter forcing.

Fall Festival

October 16-17
& 23-24

Two fun weekends of family activities and food seminars! Please visit swansonnursery.com or sign up for our e-Garden Club for details.
